ARNOLD'S VITAL FLUID

removes biliousness in the most direct and easy
manner, by neutralizing the cause. This is the
principle of its action in removing illness generalir. It neutralizes the cause by freeing the blood
from impediments to its proper fulfilment of its
life giving functions. This principle of neutraliring the cause, is why

the machine—what every part of it does—and how the whole may be kept in perfect working order with reasonable care and skill.

We specify some of the chief points of excellence belonging to these machines.

1. Perfection of Stitch. No stronger stitch is made by hand-sewing. It cannot rip any more than the common back stitch of the scanstress, and takes one-third less thread to a stitch than that does. The stitch (fine or coarse, at the pleasure of the sewer) is absolutely uniform, and is precisely the same on both sides of the seam. This last quality is of signal advantage, sometimes, in making a garment, because some parts are more casily handed in the making, by a change of side.

2. Rapidity of Execution. The saving of time by its use is hardly credible by one who has not seen it in operation. A good sewer will easily take from a thousand to twelve hundred stitches in a minute with it. The finest work does not tax the eyes as the coarsest work by hand does.

3. Stillness and Ears of Mation. The stillness of its motion is surprising. A sleeping infant would not be disturbed by one in active work stits ide. For more than a year my wife's mother and
three of my children were afflicted with a malignant hume, the character of which sminent whyant humor, the character of which eminent why nant humor, the character of which eminent whysicians were anable to determine or prescribe a

4. Ease of Adjustment, and Durability. From the prealiar principle of the machine, the fewness of its parts, and the perfection of its workmanship, the adjustments are exceedingly simple and easy. It is kept in working order with great case, and with good care we believe one will last an ordinary life time is family use.

5. Sizy, Appearance and Price. The steflumize machine—the one specially adapted for family use, and the one chiefly used for all purposes, is very compact in its structure, and the handsomest machine before the public. The price of this machine is \$100. No sewing machine really worth having for family use can be got for a less sum. It sews every kind of material, socking equally well upon silk, linen, woolen and cutton goods—seaming, quilting, gathering, hemming, de., with a beauty and strength unequalled by any machine that we have seen. RADWAY'S READY RELIEF

All the infire titles, caches and pains that are saidled upon the ippled bady, are readily removed and quickly exterminated by Radway's Ready Relief. The rapidity with which it stops the most agonizing pains and restores the infirm, nervous and bed-ridden to case, confort and renowed health forms only a unit of its traity wonderful power.—Those who have for years lingered in misery, have been suddenly relieved of all pain, and enabled in a few hours to resume the duties and labors which years of disease and decephtude have prevented.

The great principles involved in the wonderful curative powers of Radway's Ready Relief, are exclusively confined to these Remedies; and it is the great medicinal principle on which these Remedies great medicinal principle on which these Remedie are p epared, that renders them so CERTAIN, QUICK AND EFFECTUAL.

EVERY FAMILY SHOULD BE ARMED! A family armed with Radicay's Ready Relief Regula-ters, and Resolvent, are well fortified, for with thes Remedies you can resist, break up and drive callo the system all diseases that have ever afflicted hu manity since the fall of Adam.

CONSTITUTIONAL DISEASES.

Many diseases that afflict bumanity are inherited as heirlooms from the diseased bodies of sickly sires. Scrofula, Consumption, Syphilis, Fits, are among the most common of constitutional diseases. Now we care not how many generations the seeds of these diseases may have been established in the system, corrupting the blood—Radicay's Renovating Resolvent will cradicate from the bodies of the afflicted every particle of diseased deposits, and fill the voins with new, pure and healthy blood.

Radicay's Renovating Resolvent should be insiled as a blessing by every mother throughout the land whose infants are afflicted with Sores, Humors, &c. It is not only a Cathartic but a liver receive a ching first on the liver to eject its morbid matter, then on the stomach and eject its morbid matter, then on the stemmel and bowels to carry of that matter, thus accomplishing two pures as elected by without any of the painful feeling experienced at the operations of most Catharties. In strengthens the system at the same time that it surjects it and when taken daily in moderate dose will strengthen and build it up with unusual rapidity.

Dr. Sanford's Invigorator is compounded entirely from new articles of medicine, namely, Guins.

Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one lundered doses of Calomel without any of its deleterious effects.

If by irregularity or otherwise the organs of the system bee une deranged and incapable of performing their several functions;—if the Liver, Heart, Bowds, Stamach, Bladder, Kidneys, Skin, Nerve. Blood, etc., are at fault, a dose or two of Rain way's Regulatorswill restore health and remaining to weery organ throughout the body. They lored each and every organ to the natural performance of its duty, and thus keep up a regular and healthy circulation of the blood.

If a dose of Raden, y, argulator's were swallowed the moment a person feels unwell, or whon any ampleasant symptom appears, there would be no further trouble, for the discussed settin would be arrested, and a builty action restablished. On one fact the sick may depend—They became the care and as a poof that the Invigorator relieves the like its kin will begin to assume its original color.

Cambidation of assume its original color.

Costiveness can be permanently cared by the Costiveness can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the howels are left in a healthy and active state, and works are regularly as clock work. Sick Headache is very sometieved by taking a double dose of the Invigorator, which corrects all activity, and sourness of the stomach.

For an overloaded stomach it has no count, as i For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after esting heartily. For a family medicine generally, all who use it speak in the highest terms.

Dr. Sayron's invisonated came here recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced as to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspepties, for it made a complete cure before the first bettle was taken, and now we can eat any thing edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to our readers is, if Liver Complaint or Dyspepsia troubles you, do not fail to try this the greatest remedy in the world.—State Fact.

von, do not fail to try this the greatest remedy in the world.—State Forct.

There has never been tried to our family a remedy which has mot with such unbounded success in the our of diseases incident to children, as Dr. Sanford's Invigorator; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think that we are doing a service to all in advising them when they need medicine to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach, and Bowels, where all other remedies have failed to give relief. It has become souveful in our family that we will not be without it.—Jacksonville, AL, Republican.

A gentleman in Beeten writes to his friends in New Bedford thus: To your inquiries I would reply, that when I first commenced using Professor Wood's Hair Re-storative, my hair was almost white, and had been storative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruffind is quite moist. I have had my hair cut five or six times since the change, and have never seen any thing like white hair starting from the roots; and it now as thick as it ever was, and does not come out at all.

I has proved in my case all that I could wish to ask.

WOOD'S HAIR DYE.—This admirable article is rapidly improving the hair. No article of a i milar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a dearse and dry nature. It has, also, we understand, a tendency, to prewhich was formerly of a dearse and dry nature. It has, also, we understand, a tendency, to preserve the youthful color and appearance of the bair, and destroy or counteract the effect of old age.
